

Team Audio Inc – Forensic Media Services

Mission Statement

“At Team Audio, our goal is to provide professional forensic identification, restoration and acoustical services for law enforcement agencies, the legal systems, and private entities.

The basis for our activities is the enhancement and analysis of audio-visual evidence and computer data. Our unique combination of services allows us to provide a complete media forensic solution for our clients from enhancement to identification to transcripts and expert witness as well as concurrent and post-trial consulting services. We specialize in providing our clients with forensic solutions in the fields of media evidence enhancement & analysis, phonetic analysis of recorded speech, biometric voice identification, evidence and voice line-ups preparation, on-location recording, and acoustical analysis.

Team Audio strives to provide the best possible service through high standards of quality. We are a multilingual-capable firm that reaches markets across all continents. With our innovative and customized practices, we promise to provide high levels of personal attention and proactive customer support.

We employ state-of-the-art technology to process and test audiovisual media evidence as well as to perform studies and measurements. We use cutting edge digital processing tools and techniques to enhance media and utilize the latest research findings to continuously improve our methods and knowledge. Team audio also recognizes the value of a capable and diverse workforce, and therefore, we are focused on recruiting only the best candidates. We are dedicated to continuously improve our employees’ skills and credentials.

We at Team Audio are committed to providing the highest level of quality under the most stringent code of ethics. We place high emphasis on honesty & fairness and promise to deliver the most objective results with the highest levels of integrity and confidentiality. We understand the serious and sensitive nature of recorded material used by our clients. Thus, we maintain strict chain-of-possession procedures where applicable.

We are committed to provide our best efforts to help our clients obtain the most from their material to aid in their success.”
